## HON. JOHN H. STURDY

Hon. J. H. Sturdy, Minister of Reconstruction and Rehabilitation in the Saskatchewan C.C.F. government, and unanimously re-nominated by his constituency organization to represent Saskatoon for a second term, was born in Huron County, Ont. in 1893. Mr. Sturdy attended Normal School in Saskatoon in 1912 and first taught school in Saskatchewan in 1913. Mr. Sturdy went overseas in the summer of 1915 and served with Third Canadian Engineers in France until after the Somme campaign in 1916 when he was transferred to Intelligence "E". He was also with the Army of Occupation in Germany.

Mr. Sturdy farmed from 1920 to 1923 and attended the University of Saskatchewan during the winters. He was Principal of Fort Qu'Appelle school from 1924 to 1934. He was made a life member of the Canadian Legion in 1934, and was C.C.F. candidate for Fort Qu'Appelle-Wolseley in the 1934 Provincial election.

Mr. Sturdy became the first permanent general secretary of the Sask. Teachers' Federation in 1935 with head office in Saskatoon. Mr. Sturdy was largely instrumental in obtaining for teachers a statutory minimum salary in 1940 and he has worked consistently to improve economic and social conditions, not only for teachers and pupils, but for Saskatchewan people as a whole.

In World War II Mr. Sturdy served overseas for more than three years as Assistant Director of Canadian Legion Educational Services.

"Jack", as he is popularly known, is married and has one daughter and one son who after graduating in Engineering, University of Saskatchewan, served in the Royal Canadian Navy (1941-1945).

As Minister of Reconstruction and Rehabilitation, "Jack" Sturdy has done a good job for our constituency and for our own province. 1,700 veterans have been settled on provincial lands; more than seven hundred housing units were constructed; educational facilities were made available to veterans; and many hundreds were placed in training, in jobs and in business.

Regarding the youth of our Province, "Jack" has this to say, "As a teacher and a veteran I have had the privilege of being closely associated with two generations of Saskatchewan youth. They are tops! They demand no special privileges; all they ask are the opportunities to demonstrate their value to society. They have never let Canada down, but unfortunately Canada, in the past, has let them down. It must never happen again."

"Jack's" philosophy summed up is: "We have a fine province and a great people. Nothing can stop us!"

## SECURITY WITH THE C.C.F.

## ARTHUR STONE

A. T. (Art) Stone, Member for Saskatoon in the last provincial legislature, and acclaimed the unanimous choice of the C.C.F. constituency convention to represent Saskatoon for a second term, is a machinist by trade and a prominent trade unionist.

Born at Croyden, England, Mr. Stone attended Grammar School there and came to Saskatoon in 1913. He served his apprenticeship as a machinist on the Canadian Northern Railways in Winnipeg, and returned to Saskatoon in 1920. Mr. Stone has lived in Saskatoon ever since.

Mr. Stone has a record of thirty-two years' membership in the International Association of Machinists. He has been recording secretary of the Saskatoon Local, chairman of Machinists and Helpers for Saskatchewan, and Vice-President of Saskatoon Trades and Labor Council. He has also been prominent in soccer circles, having played several times against Old Country teams touring Canada. As past President of the Saskatoon unit of The State Hospital and Medical League, Mr. Stone is well versed in the problems of socialized health services and is, indeed, interested in all legislation which is for the betterment of the people of Saskatchewan.

"Art", as he is popularly known, is married and has two daughters and one son.

His long association with the Labor movement, his fearless advocacy of labor and social legislation to meet modern needs and his record of valuable service on Health and Labor Legislative Committees during his term in the Legislature have enlisted the confidence and support of all who know him.

"Art" has lived, played and worked with the workers, and knows their problems both in the home and in the plant. He is especially interested in the youth as they enter the labor market. By assisting these young people at the time when they need assistance the most, we can give them a better sense of security, and enable them to become our first rate citizens of tomorrow.

"Art" believes that we can do collectively what we cannot do individually!

**FORWARD WITH THE C.C.F.**

Dear Elector:

In 1944 your support elected us as members of the Legislature for Saskatoon, and also elected the C.C.F. Government in Saskatchewan. We take this opportunity to thank you and again to solicit your vote and influence for the election of June 24. We have endeavoured to serve Saskatoon and the province well during the past four years and we assure you of our determination to go on to bigger and better things for our people in the years to come.

Four years ago we made certain election promises. During our first term of office, we not only carried out these promises, but we did much more, as the record shows. Moreover, the progressive policies and reforms of Saskatchewan's C.C.F. Government have stimulated governments throughout Canada. It is no idle boast to state that the eyes of Canada are on Saskatchewan—what we do today the rest of Canada will do tomorrow. We want an expanding economy and full employment; we want progressive legislation and more adequate social services. We want these, not only for Saskatchewan, but for all of Canada, and that is why it is so essential to return the C.C.F. Government with a still greater popular vote.

Our immediate concern has been Saskatoon constituency which we have been proud to represent during the past four years. The lag of twenty years in the necessary expansion of our university is being rapidly overtaken. Temporary facilities were provided for the education and housing of veterans attending University. Industrial development has been encouraged, and there has been no let or hindrance to the expansion of bona fide private enterprise. It is not the intention of a C.C.F. government to enter the retail field. Indeed, by the development of our natural resources, the expansion of industry, the maintenance of a high level of employment and a decent minimum wage and wage schedule, we believe that our merchants and businessmen will continue to enjoy the prosperity they have experienced during the past four years.

To youth, workers, housewives, business and professional men, and to all citizens of Saskatoon, we pledge our continued loyalty. In the knowledge that you have reposed your confidence in us by giving us your electoral support, we shall never let you down.

Yours sincerely,

A. T. STONE

J. H. STURDY
